

Revo X Laser Welder Series

Revo X is a series of laser welding machines that provide you with the highest standard in the stand-up welder category. With two configurations to offer, Revo X Plus and Revo X², you'll enjoy the optimal working experience. The maximum power, frequency, and cooling capabilities of the machines are perfect for nonstop work sessions. The Revo X Plus and Revo X² are best for medium to heavy production demands and are capable of consistently welding/polishing silver for extended working sessions.

Key Features

- Leica® 10X stereo microscope
- Large, open-spaced welding chamber
- Motorized stand
- Onboard camera that provides high-resolution images
- Double cooling circuit with two water pumps and heat exchangers for continuous work
- 20 preset working programs and more than 100 memory cells for saving job parameters

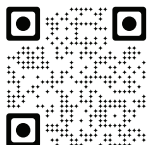

14-2001, \$28,500

14-2002, \$32,500
